Professional Summary

Highly motivated and detail-oriented Software Developer with a strong passion for creating innovative and user-friendly mobile applications. Proficient in Flutter framework, Dart programming language, and UI/UX design principles. Strong problem-solving skills and ability to work collaboratively in a team environment. Excellent communication and time management skills. Eager to contribute my skills and knowledge to contribute to the success of a dynamic and forward-thinking company.

Education

Year	Degree/Examination	Institution/Board	CGPA/Percentage
2020	Bachelor of Technology (Civil Engineering)	Government Engineering college Ajmer	66.0%
2015	Intermediate (Class XII)	kirti public school	82.4%
2012	Matriculation (Class X)	Aradhana public school Dausa	73.0%

Experience

- StoxHero | Flutter DeveloperApril 2023 - July 2024
 - Developed and implemented user-friendly mobile applications using the Flutter GetX state management.
 - Collaborated with senior developers and designers to create and integrate UI/UX designs into the applications.
 - Assisted in the analysis and interpretation of project requirements to determine app functionality and features.
 - Integrated third-party libraries, APIs, and services to enhance app capabilities.
 - Conducted unit tests and identified and fixed bugs to ensure app stability and performance.
 - Stayed updated with the latest Flutter and Dart technologies, tools, and best practices.
 - Tech stack used : Flutter , Dart , kotlin, Firebase
- Gawar Infra | Site Operation EngineerOctober 2020 - February 2022
 - Oversaw and ensured the quality of structural work on-site, ensuring compliance with project specifications, safety standards, and deadlines.
 - Prepared and reviewed contractors' bills, ensuring accuracy and adherence to contract terms, and facilitated timely payments.
 - Created and maintained detailed Bar Bending Schedules (BBS) for reinforcement steel, ensuring proper documentation and efficient workflow.
 - Collaborated with project managers, architects, and other stakeholders to ensure smooth project execution and resolve any on-site issues promptly.
 - Implemented quality control measures and conducted regular inspections to maintain high standards of construction work.

Projects

- Punyam-App | StoxHeroNovember 2023 - February 2024
 - App Development:** Developed and implemented mobile applications using Flutter, with a focus on GetX state management for efficient and responsive user interfaces.
 - Third-Party Integrations:** Integrated third-party services such as Google Maps and various APIs to enhance app functionality and user experience.
 - Location Services:** Incorporated location services to accurately determine and display the user's current location within the app, providing real-time updates and navigation features.
 - Performance Optimization:** Ensured high performance and responsiveness of applications through optimization and rigorous testing.
- Amazon-Clone | Newton School [\(link\)](#)Jan 2023 - Jan 2023

Feature:- UI Design, Intersection Observer API, Responsiveness, Animation

Tech stack used: ReactJs, Redux, Javascript, TailwindCSS

Contribution: Developed a clone of the "Amazon" Website using ReactJs including Intersection Observer API and also responsive to all screen sizes.

Future Goals: Integrate with a node.js server for data-fetching and storing to make an app-wide state management system for Authentication, also integrate nextAuth for authentication.

Feature:- UI Design, Responsiveness.

Tech stack used: ReactJs, Javascript, TailwindCSS

Contribution: Developed my portfolio using ReactJs following the building approach and using functional components to achieve the same. responsive for all screen sizes.

Certifications

Newton School | Student

June 2022-
April 2023

[\(Certificate Link\)](#)

- Learned various aspects of front-end web development
- Learned real-life project documentation, development, and deployment
- Collaborated with a team of 20 members under the supervision of mentors and instructors with vast experience in the related field
- Worked on various projects

Skills

Computer languages Flutter, Dart, Android, Java, Javascript

Software Packages Redux, NodeJS, React, Firebase

Additional Courses Taken Data Structure

Soft Skills Communication Skills
